Symposium Information

Statement of Need

The Twenty-second Annual Glaucoma Symposium is designed to update health care professionals on the latest advances in medical and surgical management of glaucoma. Novel diagnostic and treatment modalities will be presented by the Duke Eye Center Glaucoma Faculty along with distinguished guest speakers.

Target Audience

Ophthalmologists, Optometrists, and Eye Care Professionals

Learning Objectives

At the conclusion of this activity, participants should be able to:

- Discuss novel medical and surgical approaches to glaucoma management
- Describe new medications for the treatment of glaucoma
- Evaluate current diagnostic methodologies

Faculty Disclosure

The Duke University School of Medicine adheres to ACCME Essential Areas, Standards, and Policies regarding industry support of continuing medical education. Disclosure of faculty and commercial relationships will be made known at the activity. Speakers are required to openly disclose any limitations of data and/or any discussion of any off-label, experimental, or investigational uses of drugs or devices in their presentations.

Resolution of Conflicts of Interest

In accordance with the ACCME Standards for Commercial Support of CME, the Duke University School of Medicine will implement mechanisms, prior to the planning and implementation of this CME activity, to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

Disclaimer

The information provided at this CME activity is for continuing medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition.
